طريقة تحقيق الدخل

1 RESEARCH

- Mobile App Idea
- Analyse the Competition
- Know Your Target Market
- Method of Monetization
  - Paid Downloads
  - In-App Purchases
  - Subscriptions
  - Mobile Ads

2 UX DESIGN

Mobile app UX design refers to designing a mobile app which is easy to use, enhances the user's experience (UX), and provides value to the user during their interaction with your mobile app.

This stage involves various different aspects, two of which include:

- Information Architecture
- Wireframing

3 UI DESIGN

- Users
- Consistency
- Following the Latest UI Trends
- Testing
- Mock-Ups

4 TECHNICAL ASPECTS

- Front-End Mobile App Development
  - Native Apps
  - Hybrid Apps
  - Progressive Web Apps (PWA)
- Back-End Mobile App Development
  - Programming Languages
  - Database
  - Servers
  - Middleware
  - Scalability

5 MOBILE APP DEVELOPMENT

Mobile app development can be divided up into smaller more manageable parts.

- Planning
- Mobile App Development
- Testing - There are many different types of mobile app testing
- Reviewing

6 LAUNCH AND POST LAUNCH

- Setting a launch date
- Creating a marketing plan
- App Store Optimisation (ASO)
- Submit your mobile app to the app stores - e.g. Google Play Store, Apple App Store
- Continuous Integration - Continuous Delivery - Continuous Deployment
- Mobile App Maintenance - Releasing Updates
- Providing user support

The 10 Step App Map™

Want to create software to sell? Get from "idea to launch" successfully, and accomplish your goals with Purposeful Products and our 10 Step App Map™!

DREAM IT

1 DEVELOP A KILLER APP IDEA!
We'll show you how to get clear on the vision for your business, and improve your idea for maximum impact. You'll be introduced to a number of business research tools, and you'll create a simple but powerful business plan.

From 1-3 months+

PLAN IT

2 CREATE YOUR PLAN.
Creating software is a project! Learn how to outline and plan yours. We'll help you create a schedule, and show you how to identify and avoid a number of project, business, and financial risks.

3 EXPLORE THE DETAILS.
Clarity, and attention to detail are key if you want to create quality software which gets positive reviews. We'll help you define the specific details of your software app and increase your chances of success.

From 1-3 months+

DESIGN IT

4 START PROTOTYPING!
We have never seen a new entrepreneur get this stage quite right without help! Learn how to mock up your application and gather feedback. We'll point out all the common mistakes so you can do this quickly and accurately.

5 WORK ON YOUR VISUAL DESIGN.
Work on the "look and feel" of your app. Discover some of the major mistakes that tech entrepreneurs make when getting their software designed so you can AVOID these problems.

From 1-3 months+

MANAGE IT

6 CHECKPOINT!
Major pitfall alert! Use our checklist to review your work and prepare to hand over the details to your developer(s).

7 BECOME "THE BOSS"
It's time to start thinking like an efficient, productive CEO! Develop your "business brain" and people management skills, and locate and hire your developer(s), and other technical staff.

From 2-4 weeks

BUILD IT

8 GET YOUR PRODUCT BUILT.
We'll show you how to master the management of your project on a daily basis. Handle the development process like a pro, and produce a quality product quickly and economically.

From 2-8 months

MARKET IT

9 MARKET YOUR SOFTWARE.
All your efforts will be wasted if no-one uses, or buys your product. Our Tech Startup Academy™ supplies members with tips, tools, and resources to help them market their software before they officially launch!

From 2-4 weeks / ongoing

LAUNCH IT

10 LAUNCH YOUR PRODUCT!
Learn how to organise and manage the launch of a professional software product. Congratulations -you are now a fully-fledged software entrepreneur!

From 2-4 weeks +

MOBILE APP DEVELOPMENT PROCESS

1 IDEA GENERATION & VALIDATION

- Brainstorming
- Market Research
- Mind Mapping
- Concept Testing
- Requirement Gathering
- Development Strategy

2 UX/UI DESIGN

- Information Architecture
- Wireframing
- Style Guides
- Prototyping
- Mockups

3 DEVELOPMENT

- Native/Cross-platform/Hybrid
- Backend Development
- Product Builds
- Testing & QA Feedback
- Iterations

4 TESTING & QA

- Test Case Preparation
- Manual & Automated Testing
- Functional Testing
- Usability Testing
- Performance Testing
- Device Testing

5 LAUNCH & DEPLOYMENT

- Finalizing Build
- App Store Submission
- Analytics Setup
- App Store Approval
- Backend Deployment

6 MARKETING & MAINTENANCE

- App Marketing Strategy
- App Store Optimization
- User Engagement & Retention
- Continuous Monitoring
- Releasing Updates & Fixes

10-STEP CHECKLIST TO BUILD & MARKET A SUCCESSFUL APP

1 APP'S USP, PLATFORM & MONETIZATION STRATEGY

Decide on:

- A catchy name
- Revenue model (Free/Freemium/Paid)

2 COMPETITIVE ANALYSIS

Content quality	✓	✗
Ease of use	✓	✗
Navigational controls	✓	✗
Pricing	✗	✓

3 WEBSITE SETUP

Available soon on

Get ready with a website to present your app to the world, provide information about it, or make it sell more. It should showcase your app in the best way possible.

4 BUILDING IT RIGHT

- Understanding app store policies & agreements
- User-friendly design
- Checking for device compatibility (for Android apps)
- Social media integration
- Rate the App

Call-to-Action buttons to rate the app, offer feedback etc.

5 APP USER TESTING

Pretty intuitive controls

Good

UI needs to be improved

Release the Beta version to selected users

Implement user feedback into the app

6 APP STORE OPTIMIZATION

iTunes

Rocket Shoot

by Sumoo Technologies

Open iTunes to buy and download apps.
